

## NORTHERN TRIBUNE.

SATURDAY, MAY 12, 1883.

## CHEBOYGAN MATTERS.

Dusters and linen suits are not in demand.

The bull frogs stopped croaking Thursday night—froze up.

Yesterday would have been a good day for the rink business.

Paul Baker has sold out his restaurant and will move to his farm.

Spring will keep well this year, it comes to us well packed in ice.

Ben. Gero received per express Tuesday morning, a handsome new cornet.

Hail, gentle spring. It didn't hail but there was considerable ice yesterday morning.

Twelve cars were being loaded yesterday at the railroad dock with ties to be shipped to Mason.

The schooner Consuello and Louisa brought 675 tons of steam boat coal for W. & A. McArthur.

The cap lamps for the band arrived Tuesday morning and the boys illuminated that evening.

Spring tried to play a game of freeze-out yesterday morning and came near making a success of it.

The whistle of the Cheboygan Lumber company's mill once more is heard and sounds natural.

The steambarge D. W. Powers will bring 500 barrels of salt from Buffalo for S. Baker & Son on her next trip.

Carpenters are at work on the frame of the new residence at the foot of Main street to be occupied by W. B. Miller.

We are glad to note the interest taken this spring by our citizens in setting out shade trees around their premises.

Last Sabbath day was magnificent with sunshine, warmth, quiet and sobriety. Rain in short order in the evening.

The steambarge D. W. Powers brought 100 barrels of Buffalo cement and 100 barrels of Akron cement for W. & A. McArthur.

There was no school at the south school Monday, on account of the funeral of a child of John Barnish, one of the directors.

A letter was received at the postoffice Monday evening, addressed to Higgins & P., attorneys. It was for Humphrey & Perkins.

The shade trees that died in the school yard, and along the streets adjacent thereto, are being replaced this week by fresh trees.

The clam shell dredge was towed Tuesday morning up to the mill of the Southern Michigan Cedar and Lumber Co., to do some dredging at the dock.

H. J. Miner is adding to his art gallery. The latest, he put on exhibition this week entitled: "Breaking him in" and "Two in hand." Call and see them.

The school board of district No. 1, township of Benton, held a meeting Monday night and allowed several bills. No other business came before the meeting.

Wm. Bartholomew has removed to one of his houses on Dresser street where he has spent considerable money for home comforts. He will enjoy life as long as he lives.

George Jordan has opened up a restaurant in the south room of Carmody, Duggan & Working's building. George's reputation is first-class, and he will doubtless do a good business at his new stand.

J. B. McArthur has purchased an interest in the tug Cygnet, from Mattoon, Ogden & Co. This with his four new lighters, will give him ample facilities for handling the product of his mill with dispatch.

G. Blaine Bell had a splendid success in entertaining his young friends last Saturday afternoon. The weather was perfect, and the arrangements, crowd, amusements and accomplishments all harmonized with the weather. Little folks can always surpass their seniors in having a good time, without headaches or remorse.

Fred Westbrook, of Brantford, Ont., who last January gave an exhibition in our village, of his skill as a bicyclist, is entered as one of the contestants in the seventy-two-hour contest, to begin at Chicago one week from next Monday. The Chicago Herald says: "He is a wonderful rider, and after this race contemplates going to England to engage in some of the races there."

The steam yacht R. C. Wilson, of this port, was the first boat to call at Algoma Mills, Ont., this season and was received with cheers from hundreds who were on the dock to receive her. Capt. Wilson reports a great strike among the railroad hands, employed grading, on account of their wages being reduced to \$1.75 per day, and hundreds were waiting the arrival of a boat to get away on.

The tug C. E. Pendell, it is claimed brought the largest tow across Mullet lake, last Saturday, that was ever brought over. It consisted of 26,000 pieces.

The alarm of fire yesterday afternoon was caused by tool shed of Wm. Stewart catching fire from sparks from W. S. Smith's mill. It was put out before any damage was done.

Tuesday, President H. B. Ledyard, of the Michigan Central, appointed Prof. Donald Maclean, General Surgeon of the Michigan Central system to fill the vacancy caused by the death of Dr. D. O. Farrand.

W. & A. McArthur give two columns of matter in this issue that is of interest to all, and none should fail to read it. They propose making it an object for everybody to patronize them. Read their advertisement.

Col. H. G. Davis got the job of setting out shade trees around the county grounds and has been busy this week putting them in. They consist of horse chestnuts and maples, and are thrifty in appearance.

Commencing with to-morrow, there will be a mail go south every Sunday evening. The mail has increased to such an extent as to make this necessary. Lately the Monday morning's down mail has been very bulky.

The ladies of the Guild of St. James Episcopal church will give a social at the residence of James J. Brown, Esq., on Thursday of next week. All are cordially invited. The ladies always make these gatherings very enjoyable and Mr. and Mrs. Brown know how to take care of a large crowd at their home, and we predict a large attendance and a good time.

The drilling at the water works well has been progressing somewhat slowly this week, on account of the hardness of the rock. They make from five to eight feet per day, however, and are not troubled with the rock caving. As they go down, the flow of water increases, and now quite a strong stream comes out. This settles the question of success and we congratulate our citizens upon being sure of an ample supply of pure water when the well is completed.

The apportionment of the primary school fund this year is \$1.43 per capita, and increase of 19 cents over last year. The number of children included in the apportionment, in the state is 534,245, and the total amount apportioned is \$764,510.80. Last year the number of children was 518,164 and the amount \$642,523.36. Cheboygan county returned 2,758 children and receives \$3,693.69; Emmet county, 2,375 children, and receives \$3,300.44; Mackinac county 1,216 children, and receives \$1,556.71.

A Bay City "snide" printer is sending printed postals to Cheboygan business men, soliciting job work. If the cards sent are a fair specimen of the work, and it undoubtedly is, and any of our business men want that kind of work done they will have to send to Bay City to get it, no office in Cheboygan does work in that style. The newspapers of our town work for the interests of the community, and do work equal to the best and at fair prices, and feel that they are entitled to the support of the business men and the community at large. Give these snide tramps a wide berth and patronize those that patronize you.

"Flowers are the smiles of God's goodness," and Cheboygan has scores of homes where house plants are adorned with such smiles, superior to those worn by house plants far south of here. The fuchsia, geranium, amaryllis, eupatorium, maple, petunia, pansy, oxalis, heliotrope, ornamental grasses, acacia and smilax vine were charmingly represented in a magnificent bouquet that appeared last Sabbath eve on a certain pulpit. The full blooms, varied colors, and artistic arrangement of the clustered beauty, were enjoyed by all who were grateful that Cheboygan at this season of the year has an abundance of choicest blooming flowers throughout her happy homes.

We give in this issue an authenticated, historic account of the outward work of Masonry in Cheboygan. This institution is dedicated to the cause of universal benevolence, but the hand that constantly gives is invisible to the outside world. The order breathes on riches, as doth an angel of mercy and love, scattering these riches in beneficence upon the needy; like the evening dew the charities of Masonry operate silently and unseen, asking as a reward the consciousness of doing good. The light is gentle, pure and rich to those upon whom it falls, with encouragement, help and blessing. We are glad to know that the order in our midst is in a healthful, prosperous condition, embracing in its membership many of the most intelligent, progressive, liberal men of the town. It would be well for those interested in Cheboygan to preserve historic statements concerning public institutions and enterprises for reference.

C. A. Gallagher offers to give four feet of ground on Elm street, north side, running from Main street to the river, and M. W. Horne offers six feet on the south side, same distance, thus widening that portion of the street ten feet, and each will give in addition, \$500 cash, if the village will build a bridge over the river at that street.

Considerable excitement was occasioned on our streets yesterday by a rumor that the City of Cleveland was lost. It all arose from the fact that she passed Alpena without calling in, and some passengers who had been waiting for her and got left, took passage on the Arundell to Bay City, and there reported the steamer had not been heard from since Tuesday. She will be here this afternoon.

The returns show Cheboygan county, at the last school census had 2,758 children between the ages of 5 and 20, but only 2,283 were included in the apportionment of the primary school fund, some of the districts not maintaining schools. Cheboygan county returns 153 more children of school age than Alpena county, and is only exceeded in number by two counties, in the lower peninsula, Grand Traverse and Manistee, north of Bay county.

Chief Engineer Phelps, of the Michigan Central, writes one of our citizens that he will be here about the 16th, to see about surveying and setting stakes for several tracks for a switch yard. We understand he will bring a corps of engineers with him and commence the work at once. The design, as we understand it, is to prepare for next winter's operations, the experience of the past winter having satisfied them that Cheboygan was the practicable point for making their transfers, when the straits are closed with ice.

## SOMETHING OF INTEREST.
